

Annual Core Funding Grant Values

Programme Year 1: September 2022-August 2023

Date of publication: 3rd July 2024

This is the first of a yearly list of the annual Core Funding Grant values, which will be published at the end of each programme year. The list below provides the approved Core Funding and Interim Funding allocations for all Partner Services who participated in Core Funding for the first programme year (September 2022-August 2023).

This list includes the names of the services, service address and the county they operate in. This will help identify the different Partner Services.

It also includes their maximum capacity and Service Type as per the Tusla register. These are provided to help demonstrate the overall capacity of the service. This is important context for understanding the different funding values: capacity which has a direct relationship with their allocation, as larger services who open for longer hours and operate for more weeks receive more Core Funding, in proportion to the higher cost of delivering more service.

The list contains allocations of both Core Funding and Interim Funding. The Department operated an Interim Funding that was implemented due to the fact that the Employment Regulation Orders (EROs) were not in place on 1 September 2022 and Core Funding therefore could not proceed. Interim Funding distributed a smaller budget to the sector than Core Funding without the majority of the staff pay allocation. It was intended to bridge an initial gap between the end of the Transition Fund and the 15th of September, when EROs came into effect and Core Funding began.

While the list also includes important contextual information for understanding grant values, it is not possible to include every factor that can influence the total annual funding amount allocation in a readable list. There are several other factors that could result in different Core Funding values being attracted by Partner Services that otherwise look quite similar. For more information on this list and Core Funding more generally, please read the explainer guide which can be found [here](#)

The process for making changes to a Core Funding application from the 2022-2023 programme year has closed. The funding values published, may change in instances where over claims have been identified and recoupments have been processed.

This list is an important step towards higher levels of transparency and openness which is an integral part of the new funding model. The Minister and the Department are committed to working with Partner Services delivering early learning and childcare for the public good.
